ChurchCast

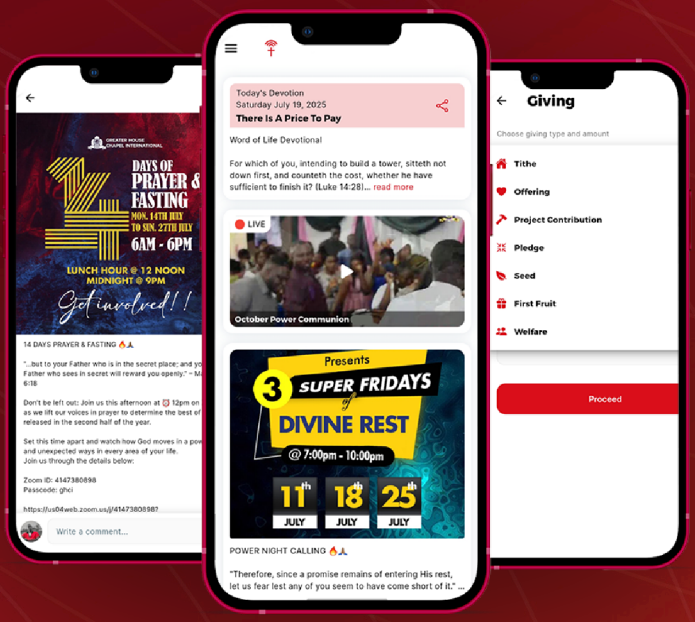

ALL-IN-ONE CHURCH MANAGEMENT

Modern church management, simplified.

Custom-branded mobile apps, complete financial management, QR gate check-in, smart groups, and enterprise-grade security — plus multi-campus support. Everything you need to modernize your ministry and engage your congregation.

† Trusted by growing churches

Try before you commit

THE PROBLEM

Running a growing church the old way holds you back

Spreadsheets, paper records, cash offerings and group chats only take a church so far. As your congregation grows the cracks show — lost data, costly errors, endless manual admin, and members who feel disconnected.

Sound familiar? Here's what it's really costing you.

Scattered data chaos

Members, finances and events spread across spreadsheets, paper and different apps — finding anything takes forever.

Wastes 10+ hrs/week

Manual admin burden

Hours lost on manual reports, receipts, reminders and repetitive data entry — time stolen from ministry.

Less ministry time

Error-prone finances

Wrong amounts, duplicate entries and missing receipts — with no audit trail to catch the mistakes.

Costly errors

No financial visibility

Leaders wait weeks for numbers and lack clear, timely reports to make confident decisions.

Flying blind

Giving left on the table

Cash-only giving is hard to track, and members have no simple, secure way to give any time, anywhere.

Lost giving

Lost visitor details

Signup sheets pile up, handwriting is illegible, contacts never reach your system — and first-time guests slip away with no follow-up.

Visitors slip away

THE SOLUTION

One platform for everything your church needs

ChurchCast brings your people, giving, events, communication and reporting into one modern, secure platform — with a custom-branded app for your members and a powerful console for your team. Less admin, more ministry.

Everything below is included – and it all works together.

Custom-branded apps

iOS & Android apps carrying your church's name, logo and colours.

Complete finance suite

Tithes, offerings, first fruits, seeds, pledges, projects, welfare, expenses & budgets.

Digital giving

Card & mobile-money giving, free shareable links and project fundraising.

Reports & insights

Branded PDF financial & people reports with live dashboards.

Members, departments & groups

Directory, CSV import, ministry teams, and smart groups with leaders.

Programs & events

Scheduling, RSVP/registration and volunteer assignments.

Attendance (QR & GPS)

QR kiosk check-in at the gate or GPS-based attendance — plus visitor capture.

Messaging & reminders

Push notifications, bulk SMS, plus automatic birthday wishes, devotion delivery and event reminders.

Verified & secure

Per-device verification, signed gateways, full audit trail, multi-campus.

FOR YOUR MEMBERS

A beautiful, church-branded mobile app

From daily devotionals to live streaming, prayer requests to in-app giving — everything your congregation needs, in one app that looks and feels like *your* church.

Sermons & audio
Stream & download sermons with background, offline-friendly playback and playlists.

In-app giving
Tithes, offerings, first fruits, seeds, pledges & project gifts — secure, in seconds.

Daily devotionals
Schedule devotionals in advance — they publish and notify members automatically on time.

Encrypted prayer requests
Members submit prayers privately — end-to-end encrypted and confidential.

Announcements & push
Rich announcements plus automatic birthday wishes and event reminders — no one has to press send.

Events & RSVP
Browse programs, register/RSVP, and stay connected to church life.

Attendance (QR or GPS)
Scan the gate QR code or check in via GPS — both options available per program.

Videos & live
YouTube-integrated video library and live services.

Community feed
Posts, likes, comments and sharing keep members connected.

Bible & scripture
Read the Word and share verses right in the app.

Custom branding
Your logo, colours and identity throughout the app.

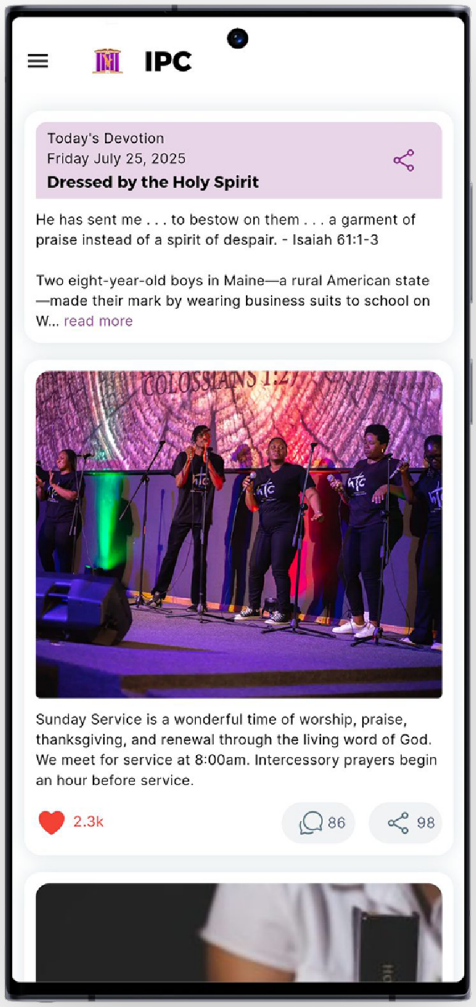

Member profile
Manage your profile and stay in the church directory.

Bible stories
30 stories from Creation to the Resurrection — offline-ready.

Photo gallery
Relive services and events through church galleries.

Evangelism
Record souls won and track your follow-ups in the field.

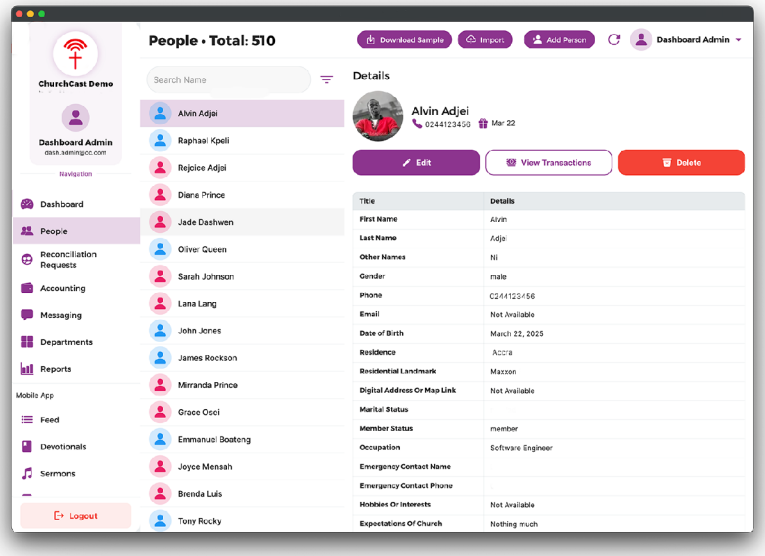

Giving records
View your contributions and request reconciliation.

FOR YOUR CHURCH · YOUR PEOPLE

Know, group & shepherd your congregation

A complete member directory — plus smart groups and delegated leaders — so you can care for every member and reach the right people at the right time.

The single source of truth

Rich profiles with contact, family, occupation, visitor/member status and birthdays — every person's full picture in one place.

- Directory & search
- CSV import/export
- Departments
- Visitors → members

SMART GROUPS

PROFESSIONAL PLAN

Manual & template groups

Build groups by hand or use live templates — gender, age, birthdays, new members, evangelism prospects, and more.

Open groups & join requests

Let members request to join from the app; admins approve with one tap.

Group leaders

Delegate outreach to trusted leaders without handing over full admin access.

Leader messaging

Leaders send push notifications and SMS to their group — one-way outreach, not chat.

Search & filters

Find anyone instantly; filter by department, status or attribute.

Ministers & leadership

Track leaders and their roles across the church.

Roles & permissions

Give staff exactly the access they need — nothing more.

From first-time visitors to faithful members

Track visitor status in the directory, organise into departments and smart groups, and never lose sight of who needs pastoral care.

No more spreadsheets

FOR YOUR CHURCH · FINANCES

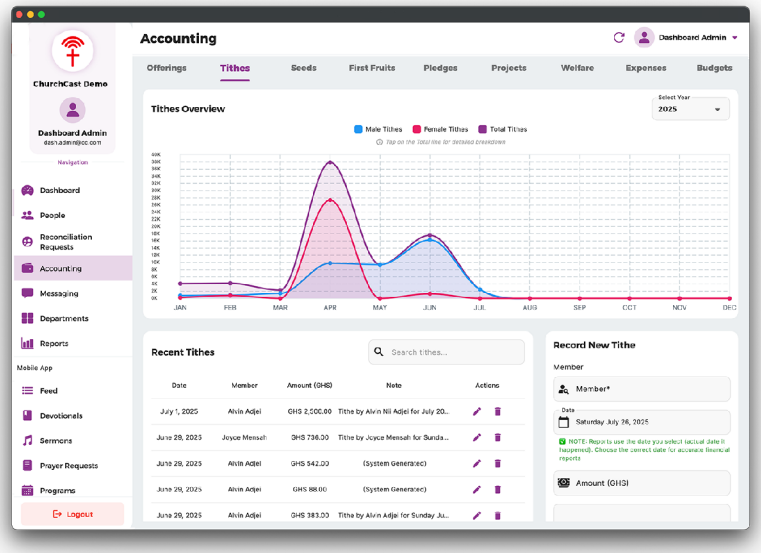

Every stream of giving, under control

Record contributions by member, track every category of giving and spending, and always know exactly where your church stands — with a complete, auditable financial suite.

Built for church finance

Every gift recorded and attributed, with running totals, notes and a full history — nothing slips through the cracks.

- Per-member history
- Branded PDF reports
- Edit history & audit trail
- Multi-currency

THE COMPLETE FINANCIAL SUITE

Tithes
Record & track by member with full history.

Offerings
General & freewill gifts by service.

First fruits
Recorded and attributed with notes.

Seeds
Special gifts tracked per member.

Pledges
Commitments & recurring pledges.

Projects
Fundraising targets with progress.

Welfare
Benevolence with request workflows.

Expenses
Categorised, approved & audited.

Budgets
Plan vs. actual with variance.

Every cedi accounted for. Every change tracked.

From the offering basket to the annual budget, ChurchCast keeps your finances accurate and transparent — with a full edit history showing who changed what, when, and the before-and-after values.

- Audit-ready
- One-click reports

ATTENDANCE – QR KIOSK & GPS PROFESSIONAL PLAN

Check people in at the door — QR scan or GPS, your choice.

Never lose a first-time visitor again.

Paper signup cards get lost, handwriting is illegible, and contacts never make it into your system. WhatsApp numbers shared at the door are forgotten by Monday.

The attendance kiosk solves both headcount and visitor intake in one scan — at `attendance.churchcast.io`.

Kiosk display
Open on a TV or tablet; shows a pairing code; your admin claims it from the mobile app.

Rotating QR
Refreshes every 30–60 seconds — screenshots can't be shared in church group chats.

Guest check-in form
Visitors without the app scan with their phone camera → a branded web form on the kiosk.

Built-in visitor capture – no separate signup sheet

- Collects **name**, **phone** and optional **email** on the guest form.
- Checkbox: *"This is my first time here — I'd like someone to follow up with me."*
- First-timers appear in a follow-up list in the mobile admin app — ready for your welcome team.
- Same scan records **attendance** for that service — intake and headcount in one step.

Members
Scan the QR inside the ChurchCast app for instant check-in.

Guests & first-timers
Scan with their phone camera → kiosk guest form → checked in and captured.

QR or GPS — per program | Real-time session control | Multi-screen support

Replaces paper visitor cards at the door — details go straight into your system, ready for follow-up. GPS check-in is also available as an alternative per program, so each service can use whichever method works best.

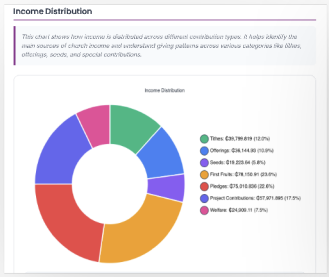

FOR YOUR CHURCH · INSIGHT & OUTREACH

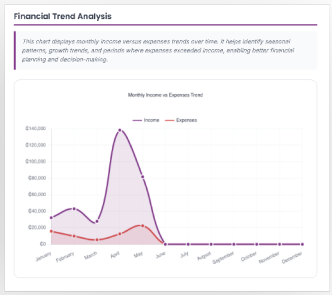

Reports, outreach & accountability

Branded reports, in one click

Generate monthly, annual and year-to-date financial statements, personal contribution reports, and people/demographic reports — exported to polished PDFs with your church logo.

Financial statements | Contribution reports | Budget vs. actual | Member & birthday reports

Branded PDF reports

Financial statements, contribution reports, budget vs. actual, and people/demographic exports — all with your church logo.

Reach the right people

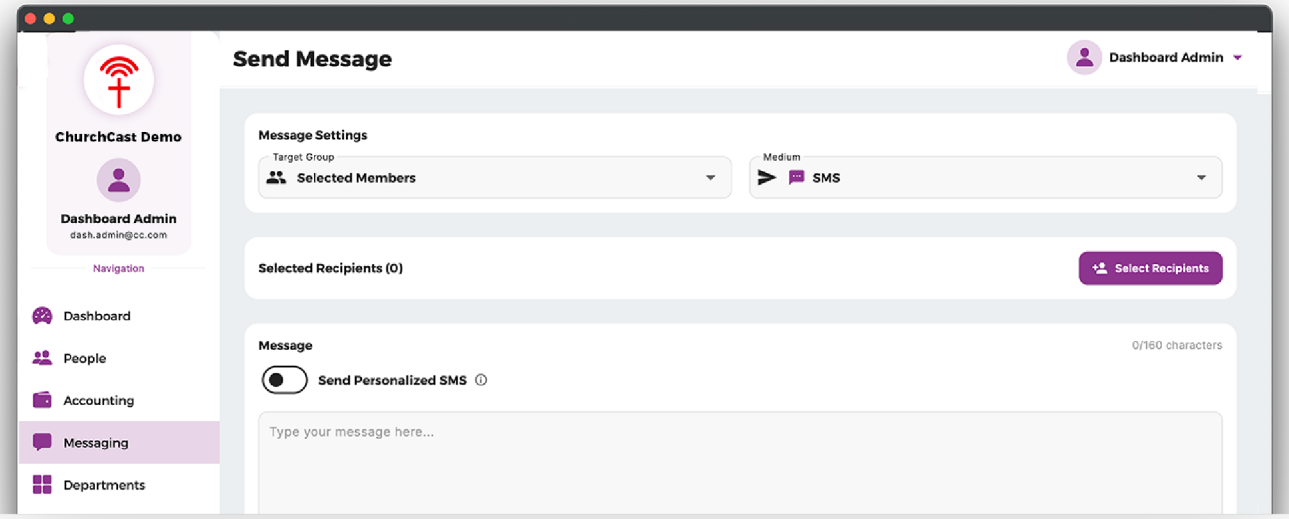

Church-wide push and bulk SMS — plus group-targeted messaging from admins and group leaders.

Complete audit trail

Full activity history across people, finances, groups and settings — who changed what, when, with before-and-after values. 60-day retention with export.

Smart automation

Birthday wishes, scheduled devotionals and event reminders all happen automatically in the background — no manual work needed.

DIGITAL GIVING

Accept online giving at the lowest cost

Give your members every convenient way to give — cards, mobile money, and free shareable links — with transparent, low transaction fees and no hidden costs.

Mobile Money

MTN Mobile Money, Telecel/Vodafone Cash, AirtelTigo Money — all networks supported.

1.7% / transaction

Card payments

Visa, Mastercard, Discover & Maestro, American Express.

2.15% local · 2.5% international

Free payment links

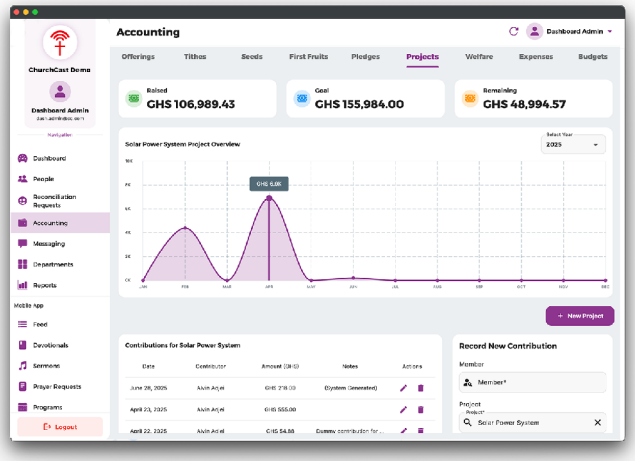

Share anywhere — WhatsApp, SMS, email or your website. No cost.

Project fundraising

Set targets and deadlines; members watch progress grow.

Instant receipts

Every gift is recorded with a receipt and personal giving history.

Set-up is free, forever

Account creation, church onboarding, payment setup and dedicated support cost nothing. You only ever pay the low per-transaction fee when a member gives online.

- No set-up cost
- No monthly fee
- Pay only per gift

Every way your members already give – in one tap

Members give to any fund straight from the app or a shared link, with an instant receipt and a running personal giving history. No cash to count, no envelopes to reconcile.

- Tithes
- Offerings
- First fruits
- Seeds
- Pledges
- Project funds
- Welfare
- General donations

BUILT TO BE TRUSTED

Security, privacy & accountability

Your church data is sensitive. ChurchCast protects it with layered security — verified devices, signed gateways, and a complete audit trail — on infrastructure built for reliability.

PROTECTING SIGN-IN & ACCESS

Verified app requests
Each enrolled phone or desktop signs API requests with its own secret — not a shared password baked into the app.

Passwordless admin login
Web shows a QR or code; only an already-signed-in mobile admin can approve — codes can't be guessed from the browser.

JWT authentication
Industry-standard token-based identity verification on every request.

Rate limiting
Brute-force protection on login and other sensitive flows.

Role-based access
Fine-grained privileges; branch switching limited to authorised main-campus super admins.

Two-factor authentication
Time-based one-time passwords for privileged accounts.

PROTECTING DATA & ACCOUNTABILITY

Per-church isolation
Separate database per church — data is never commingled with another ministry's.

Encrypted prayer requests
Members' prayers are encrypted at rest and kept strictly confidential.

Giving privacy
Optionally hide giver names on tithes — record the amount without exposing who gave.

Signed public gateways
Attendance kiosk use dedicated server-side signing.

Complete audit trail
Activity, financial, and export logs — who did what, when, with before/after values.

Encryption in transit
TLS everywhere — data protected between devices and our servers.

A PLATFORM THAT GROWS WITH YOU

Truly multi-platform
iOS and Android for members, and the web for the office.

Regional by design
Per-church currency and timezone, regional payment providers.

Multi-branch
Parent + branch churches with isolated data and controlled switching.

Peace of mind, built in

Verified devices, signed gateways, encrypted prayers, per-church isolation, and a complete audit trail — your people's information stays private, protected, and fully in your control.

99.9% uptime | Free migration | GDPR-minded

GET STARTED

Ready to transform your church management?

Try **Basic free for 30 days**, no credit card required — or on the plans that include your own branded app, pay the one-time setup fee and we add a further 30 days, giving you **two months** to decide. Free migration support included, and our team guides you through onboarding.

1

Start your trial

Create your account and explore Basic free for 30 days — or pay the setup fee on an app plan and get two months.

2

We migrate you

Free data migration from your current system, plus setup and branding.

3

Go live

Launch your branded app and dashboard to your congregation.

⏱️ Most churches are up and running in about **one week** — around **two weeks** for plans that include a custom-branded mobile app, so we can design, build and publish it to the app stores for you.
